

Sathi All For Partnerships (SAFP)

Vision of SAFP: Promote caring, inclusion and well-being in communities with a special focus on vulnerable groups of women, elderly; the disabled and other excluded groups.

Our approach to work: Create a caring and responsible neighborhood through capabilities improvement (at leadership and community levels); readily accessible support services; promote safe and healthy homes and public spaces; and use commerce for well being of all to increase resource base at local level and promote partnerships that work in collaboration to redistribute resources locally to impact district development.

The 3 areas of work will be in (i) Research and Knowledge building (ii) Practice and Policy shaping and (iii) Capabilities building of all.
